Smart Objects enable you to apply changes to any part of the image (a frame from a photo or an embedded URL) without interfering with other parts of the image. For example, a Smart Object can tell an image that a backside is pasted and then change the pasted portion of the image to a different color. You can use Smart Objects for manipulation to a limitless extent.

## Adobe Photoshop 2021 (Version 22.1.1)

A randomized controlled trial of cimetidine, ranitidine and ranitidine plus leucine in the treatment of oesophagitis. Nineteen patients with gastroesophageal reflux and confirmed oesophagitis were randomly allocated to a single dose of cimetidine (1 g), ranitidine (1 g) or ranitidine and leucine (2 g) given with food. Oesophagitis was again confirmed 48 h later. Ranitidine and leucine were effective in reducing the symptoms of oesophagitis. Gastroesophageal reflux occurred in all treatment groups, more frequently with leucine and with cimetidine and ranitidine during the pre-treatment period than with ranitidine alone. Peak acid concentrations were similar in all three groups with ranitidine, but more with leucine than cimetidine. Ranitidine and leucine were significantly more effective than cimetidine in reducing the degree of oesophagitis. As the tide of resistance rises against the Murdoch empire, News International remains defiant in the belief that if they throw a lot of money at the police and do everything right, it will all go away. And many in the police force were happy to oblige. They are still working with the biggest network of criminals in Britain, though it no longer controls it in any meaningful sense. The revelations from the Hacked Off campaign group, taken together, suggest there was a culture of tacit support for hacking at the highest level. But are there holes in this culture? And are the holes politically exploited by the reporter-turned-exposed-hacker who only ever did good in the eyes of his parents? One thing is certain. Some of the most senior officers in charge of protecting the News of the World staff – chief superintendents John Yates, Colin Myler and Sue Hemming – will face questioning from MPs, but not the paymasters or bosses. The feeling of political impunity at News International was symbolised by the police response to the battle for evidence between James Murdoch and Gordon Brown. The first Home Secretary, Alan Johnson, appeared more than happy to let News International destroy the evidence. All the rest, from Paul Stephenson to Andy Hayman, appeared to give the go ahead for the destruction of evidence (we know what they told Andy). In 2007, we are told, the Blair government was made aware that
