

keygen infrastructure design suite 2012 portable It presents the results of studies conducted in recent years on an urgent problem - assessing the state of health of the population according to the data of access to medical institutions. For the first time, the book summarizes and systematizes data on the study of the prevalence of noncommunicable diseases in order to build models for their management. Discusses how to improve the system of medical prevention and promote a healthy lifestyle of the population.
